

Trend in Papua New Guinea's public financial management

Which way is Papua New Guinea's public financial management trending?

SlideShare presentation

We have prepared a SlideShare [presentation](#) that discusses the desperate state of Papua New Guinea's public financial management (PFM). The presentation highlights a deteriorating trend in the country's PFM over recent years and its very poor recent performance compared with most other countries based on Public Expenditure and Financial Accountability (PEFA) assessment methodology. The presentation recommends the government publishes its recently prepared PFM reform road map to facilitate an open evaluation of the root causes of Papua New Guinea's poor PFM performance and reform options by a full range of stakeholders. We end the presentation by reiterating our view that in its current form PEFA methodology is unsuited to play a really constructive role in the reform of PFM practice in fragile states.
