# Belarus Public Financial Management Profile

# Introduction

This note presents a series of charts which provide an **overview** of Belarus's recent public financial management (PFM) performance based on this country's 2014 Public Expenditure and Financial Accountability (PEFA) assessment. Comparisons are made between Belarus's performance and the performance of the other twenty-three countries that had PEFA assessments published in 2014-2015. All analyses have been prepared using results reported from using the 2011 PEFA methodology.

## Overall PFM performance

Individual country PFM performance has been determined by applying the following points scale to reported individual performance indicator (PI) scores as presented in Table 1. No points were allocated to PIs that were not scored because either data was unavailable, a D score was given or the PI was

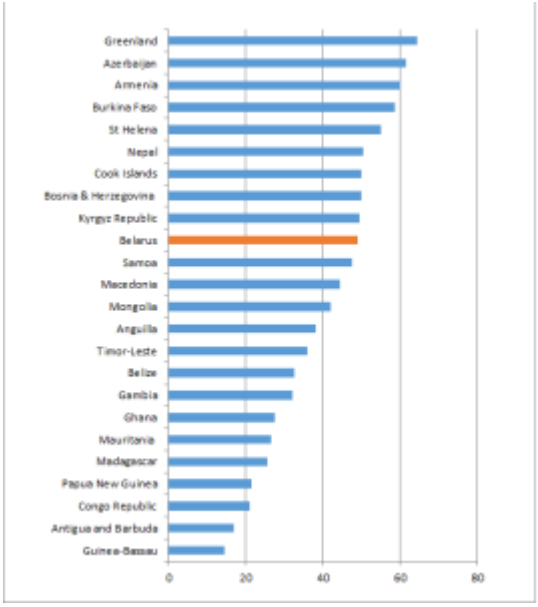
not applicable.

**Table 1: PI scoring methodology**

| PEFA PI score | Points allocated |
|---|---|
| A | 3 |
| B+ | 2.5 |
| B | 2 |
| C+ | 1.5 |
| C | 1 |
| D+ | .5 |
| D | 0 |

The graph in Figure 1 below shows Belarus's overall score was ranked tenth out of the twenty-four countries.

**Figure 1: Aggregate PEFA scores for 24 countries**



Details of the distribution of overall country scores across PFM performance categories, as determined by PFMConnect, are presented in Table 2. Belarus's overall score was 49 points.
