

Performance Evaluation Framework for PPP road construction projects in developing countries

The public–private partnership (PPP) mechanism is often proposed as a means of delivering public services, particularly complex construction projects, in developing countries. This [study](#), published in September 2022, developed a performance framework to evaluate the application of PPP projects based on 10 key performance indicators and 41 performance measures. The framework was reviewed by experts for coverage and relevance, then validated through two Pakistani road construction case studies.
