

Azerbaijan Public Financial Management Profile

Introduction

This note presents a series of charts which provide an **overview** of Azerbaijan's recent public financial management (PFM) performance based on this country's 2014 Public Expenditure and Financial Accountability (PEFA) assessment. Comparisons are made between Azerbaijan's performance and the performance of the other twenty-three countries that had PEFA assessments published in 2014-2015. All analyses have been prepared using results reported from using the 2011 PEFA methodology.

Individual country PFM performance has been determined by applying the following points scale to reported individual performance indicator (PI) scores as presented in Table 1. No points were allocated to PIs that were not scored because

either data was unavailable, a D score was given or the PI was not applicable.
