

# Cook Islands Public Financial Management Profile

## Introduction

This note presents a series of charts which provide an **overview** of the Cook Islands' recent public financial management (PFM) performance based on this country's 2015 Public Expenditure and Financial Accountability (PEFA) assessment. Comparisons are made between the Cook Islands' performance and the performance of the other twenty-three countries that had PEFA assessments published in 2014-2015. All analyses have been prepared using results reported from using the 2011 PEFA methodology.

## Overall PFM performance

Individual country PFM performance has been determined by applying the following points scale to reported individual performance indicator (PI) scores as presented in Table 1. No points were allocated to PIs that were not scored because

either data was unavailable, a D score was given or the PI was not applicable.

**Table 1: PI scoring methodology**

PEFA PI score	Points allocated
A	3
B+	2.5
B	2
C+	1.5
C	1
D+	.5
D	0

The graph in Figure 1 below shows the Cook Islands' overall score was ranked 7th out of the twenty-four countries.

**Figure 1: Aggregate PEFA scores for 24 countries**

Details of the distribution of overall country scores across PFM performance categories, as determined by PFMConnect, are presented in Table 2. The Cook Islands' overall score was 50 points.

**Table 2: Distribution of country PFM performance levels**
