

Regional historical trends in CPI 2012-2017

Transparency International released their Corruption Perceptions Index 2017 on 22 February 2018. Whilst **historical trends in CPI index scores for 2012-2017** for each country are also presented, the 2012-2017 historical scores have not been separately presented on a **regional basis** to allow a quick comparison of country [corruption](#) scores within each of the six regions used in the analysis (Americas, Asia Pacific, Eastern Europe & Central Asia, MENA, Sub-Saharan Africa and Western Europe).

We have reorganised the spreadsheet provided by Transparency International to provide a listing of the **reported historical trends in index scores for 2012-2017 for countries** in each of the six regions. Our spreadsheet is available [here](#).

Doing Business 2015 Sub-Saharan Africa

Read Doing Business 2015

Sub-Saharan Africa

Read the [Doing Business 2015 regional profile for Sub-Saharan Africa](#). Learn how easy or difficult it is for local entrepreneurs to establish and run small to medium-size businesses when complying with relevant regulations.

The quality of public financial management (PFM) in business regulatory agencies inevitably impacts on their operational performance which in turn impacts on entrepreneurs.

Human Development Report 2015

Read UNDP's Human Development Report 2015

The report discusses how work can assist improvements in human development. The contents will interest a wide range of stakeholder groups.
